

118TH CONGRESS
1ST SESSION

S. _____

To provide access to reliable, clean, and drinkable water on Tribal lands,
and for other purposes.

IN THE SENATE OF THE UNITED STATES

Mr. BENNET introduced the following bill; which was read twice and referred
to the Committee on _____

A BILL

To provide access to reliable, clean, and drinkable water
on Tribal lands, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Tribal Access to Clean
5 Water Act of 2023”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

- 8 (1) access to reliable, clean, and drinkable
9 water is an essential human need and critical to the
10 public health, well-being, educational attainment,

1 and economic development of all communities in the
2 United States;

3 (2) many countries, along with the United Na-
4 tions, have recognized the urgency of the need to ac-
5 cess reliable, clean, and drinkable water by passing
6 laws or resolutions relating to the human right to
7 water and sanitation, including—

8 (A) recognizing these water and sanitation
9 needs exist among indigenous peoples; and

10 (B) establishing aggressive targets for
11 achieving universal access to those basic serv-
12 ices;

13 (3) in the United States, access to reliable,
14 clean, and drinkable water has long been a signifi-
15 cant problem in many Native communities, such that
16 nearly half of all households in those communities do
17 not have access to reliable water sources, clean
18 drinking water, or basic sanitation, and are signifi-
19 cantly more likely than White households to lack in-
20 door plumbing;

21 (4) the trust responsibility of the Federal Gov-
22 ernment to Indian Tribes requires the Federal Gov-
23 ernment to ensure the survival and welfare of Indian
24 Tribes, and the failure to provide basic water service
25 cannot be reconciled with that trust responsibility;

1 (5) the COVID–19 pandemic had, and con-
2 tinues to have, a disproportionate impact on Native
3 communities due to a multitude of factors, includ-
4 ing—

5 (A) persistent economic disadvantages;

6 (B) racial inequity; and

7 (C) lack of public health infrastructure, in-
8 cluding access to running water;

9 (6) on January 27, 2021, President Biden
10 issued Executive Order 14008 (42 U.S.C. 4321
11 note; relating to tackling the climate crisis at home
12 and abroad), which provides that it is the policy of
13 the Biden Administration to secure environmental
14 justice and spur economic opportunity for disadvan-
15 taged communities that have been historically
16 marginalized and overburdened by pollution and
17 underinvestment in housing, transportation, water
18 and wastewater infrastructure, and health care;

19 (7) through the bipartisan Infrastructure In-
20 vestment and Jobs Act (Public Law 117–58; 135
21 Stat. 429), Congress provided funding for the Indian
22 Health Service and the Environmental Protection
23 Agency to support the construction and repair of
24 Tribal clean water infrastructure, but inadequate re-
25 sources are available to Indian Tribes to assist with

1 accessing those construction and repair funding pro-
2 grams and to support the operation and mainte-
3 nance of water infrastructure;

4 (8) filling the gaps in funding described in
5 paragraph (7) is necessary to successfully implement
6 the historic investment in clean water infrastructure
7 in Native communities;

8 (9) technical assistance to Indian Tribes is nec-
9 essary to ensure that Indian Tribes are able—

10 (A) to access and take advantage of the
11 new funding described in paragraph (7);

12 (B) to develop the managerial, financial,
13 and regulatory framework necessary for a fully
14 functional and self-sustaining utility; and

15 (C) to engage appropriate outside consult-
16 ants to assist as needed;

17 (10) advances in water technology, including
18 treatment, sensors, and innovative pipeline mate-
19 rials, can assist in—

20 (A) accelerating efforts to provide uni-
21 versal access to reliable, clean, and drinkable
22 water for all Native communities; and

23 (B) enhancing resilience in the face of cli-
24 mate change;

1 (11) the COVID–19 pandemic has been a stark
2 reminder that access to reliable, clean, and drinkable
3 water to support basic hygiene is a matter of life or
4 death for all individuals in the United States;

5 (12) it is in the interest of the United States,
6 and it is the policy of the United States, that all ex-
7 isting Native communities be provided with safe and
8 adequate water supply systems as soon as prac-
9 ticable; and

10 (13) both appropriate funding at the level of
11 unmet need and a “whole of government” approach
12 among all Federal agencies are essential to provide
13 a meaningful solution to the lack of access to clean
14 water on Tribal lands.
